

Advance Web Technologies

Fa4

By Team C

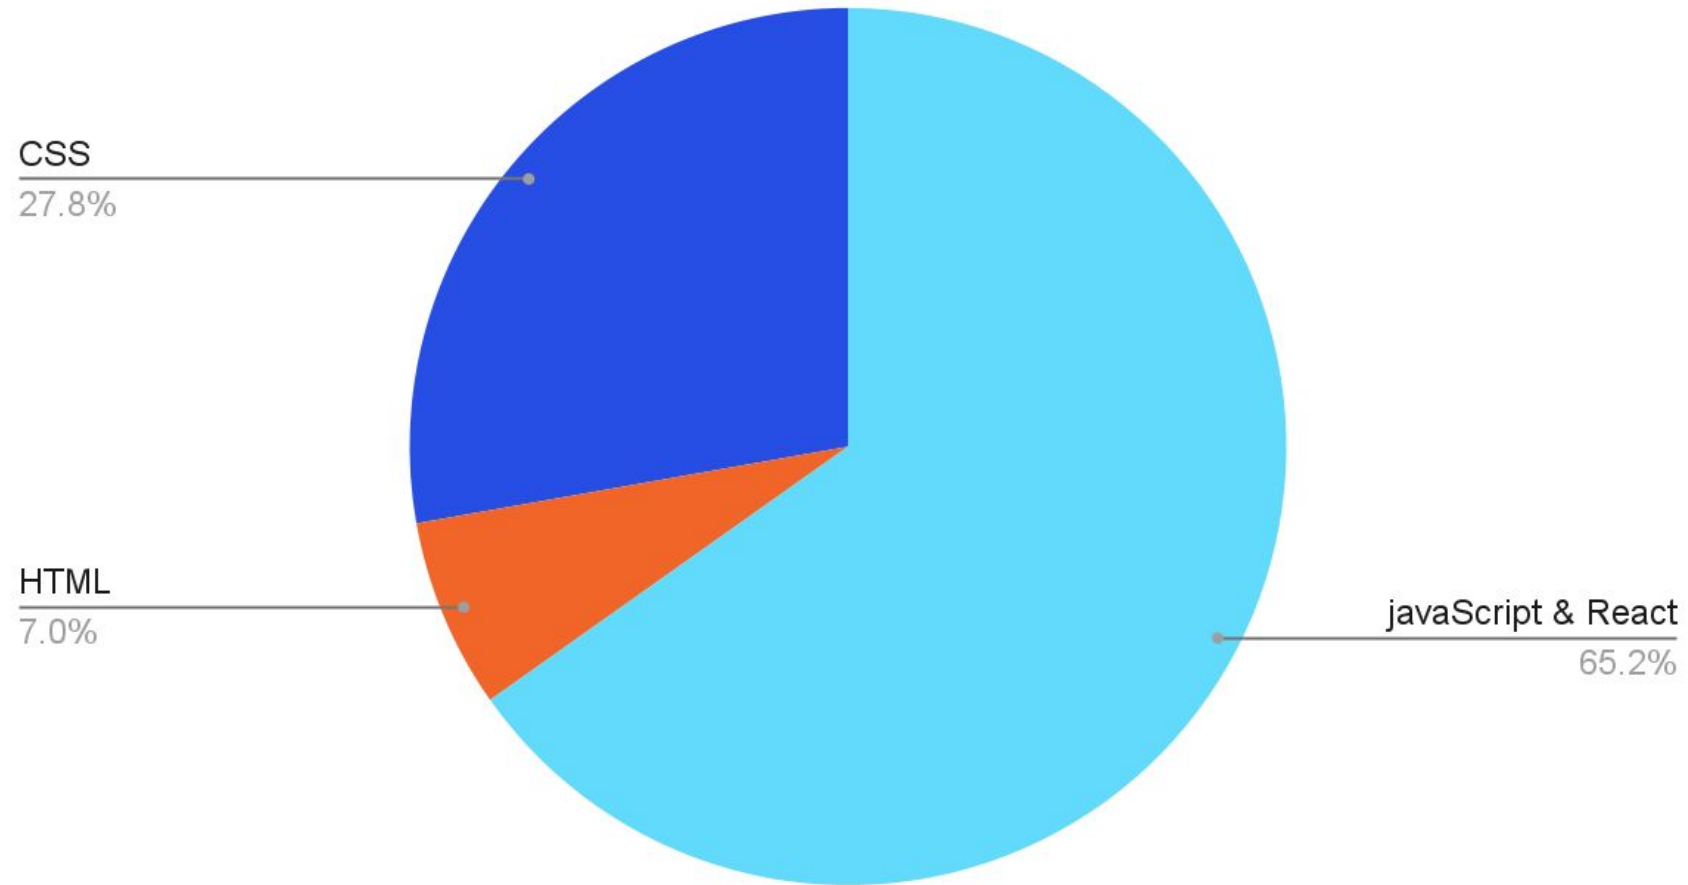

Weather and News App

The Project is a Website which uses the Weather and News Information from Various Sources and Combine them to Make a Soothing User Interactive Interface, Where user can Search weather data and can get Tech information from everywhere around the world

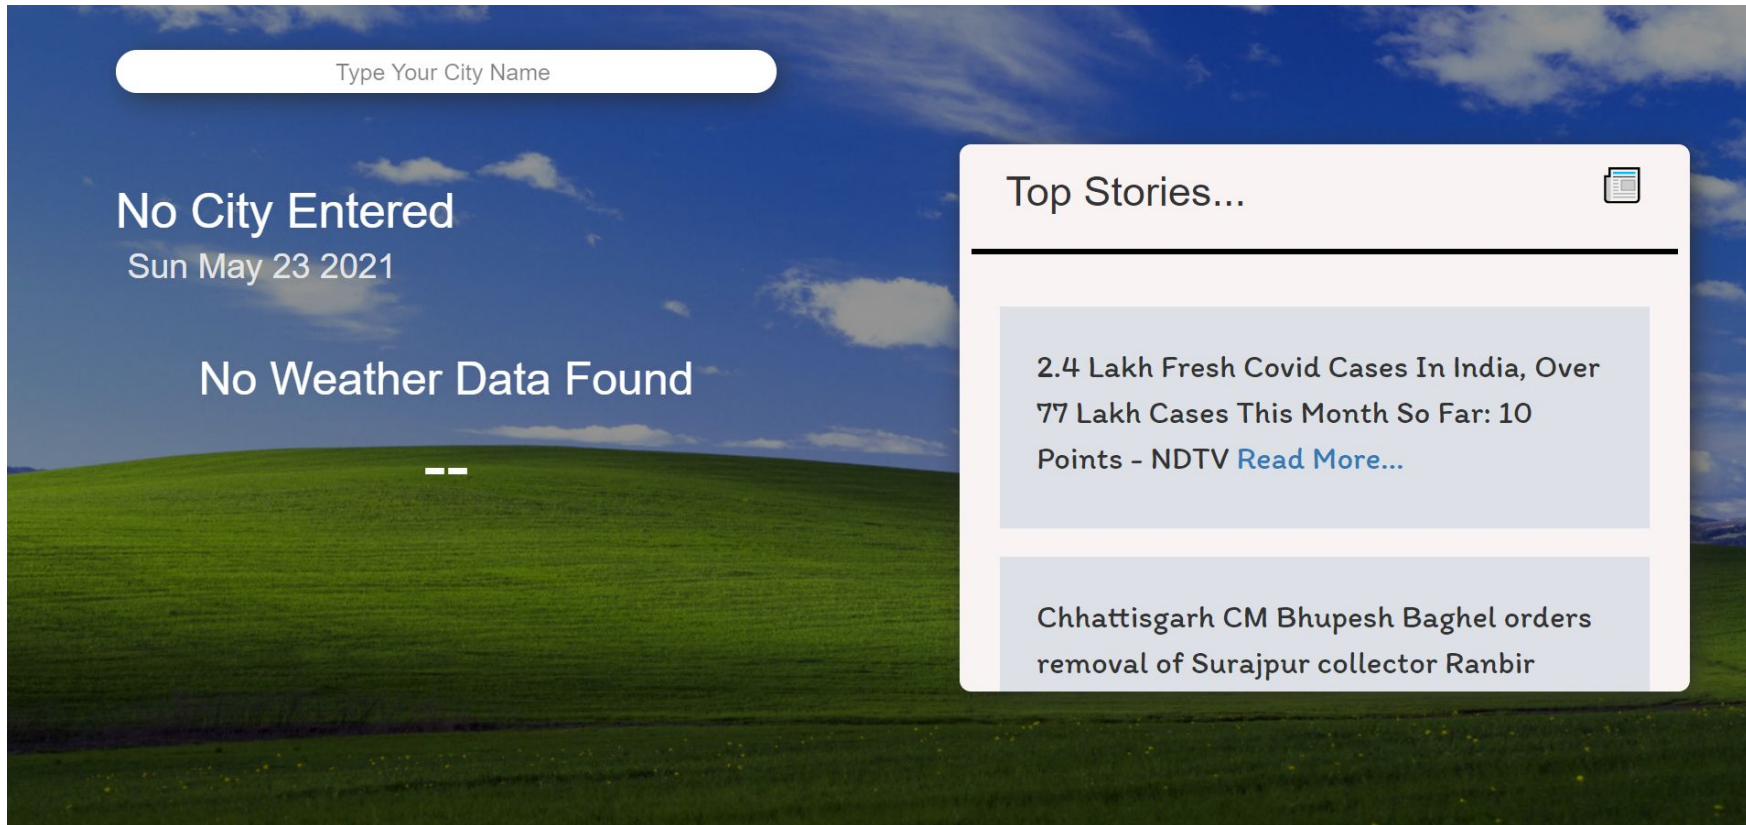

- ❖ **Bhavuk Dhawan** (1910990640) Team Lead
- ❖ **Suhit Gupta** (1910991408)
- ❖ **Tanishq Sehra** (1910991409)
- ❖ **Himani Singla** (1910991357)

Stack Used

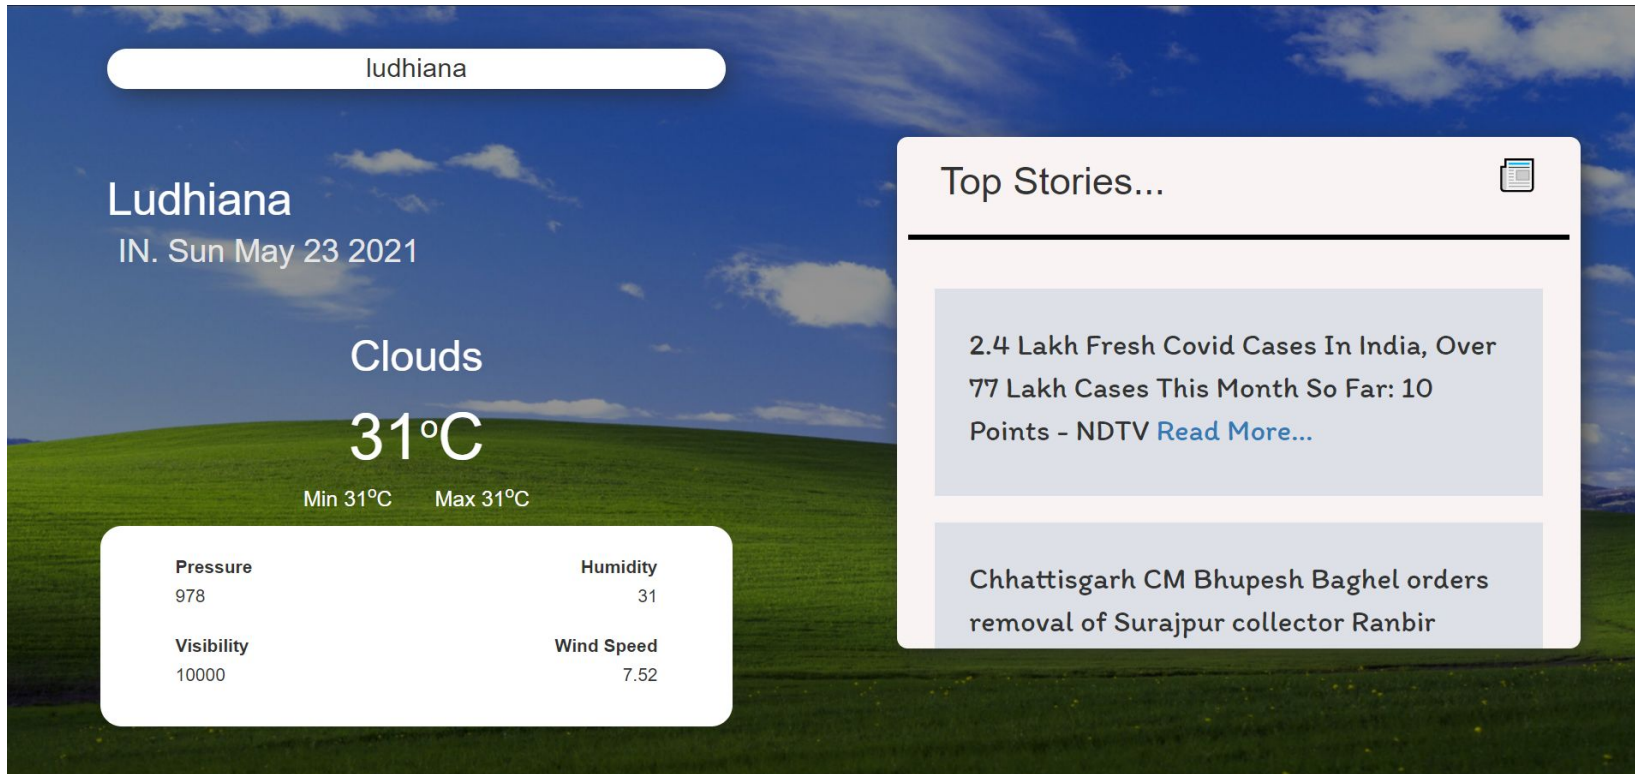

Interface Of Our Website

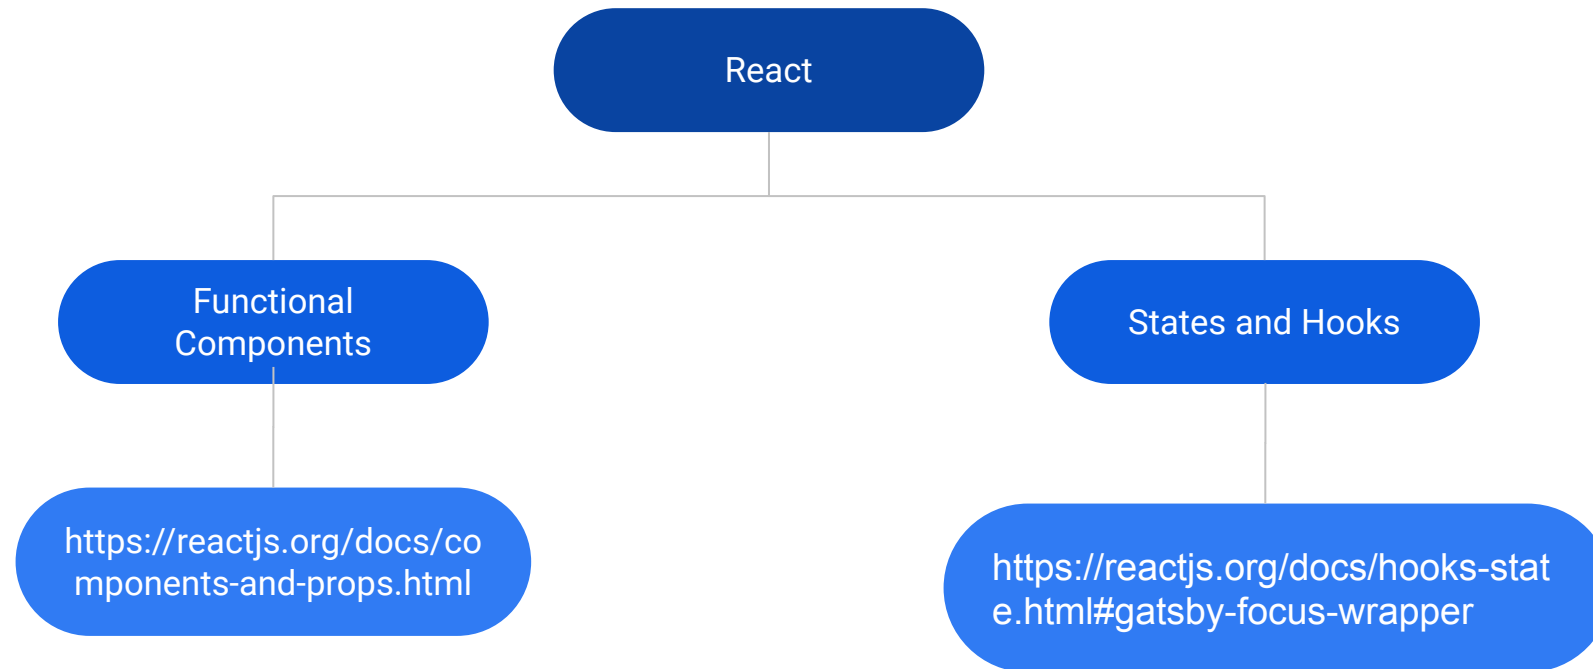

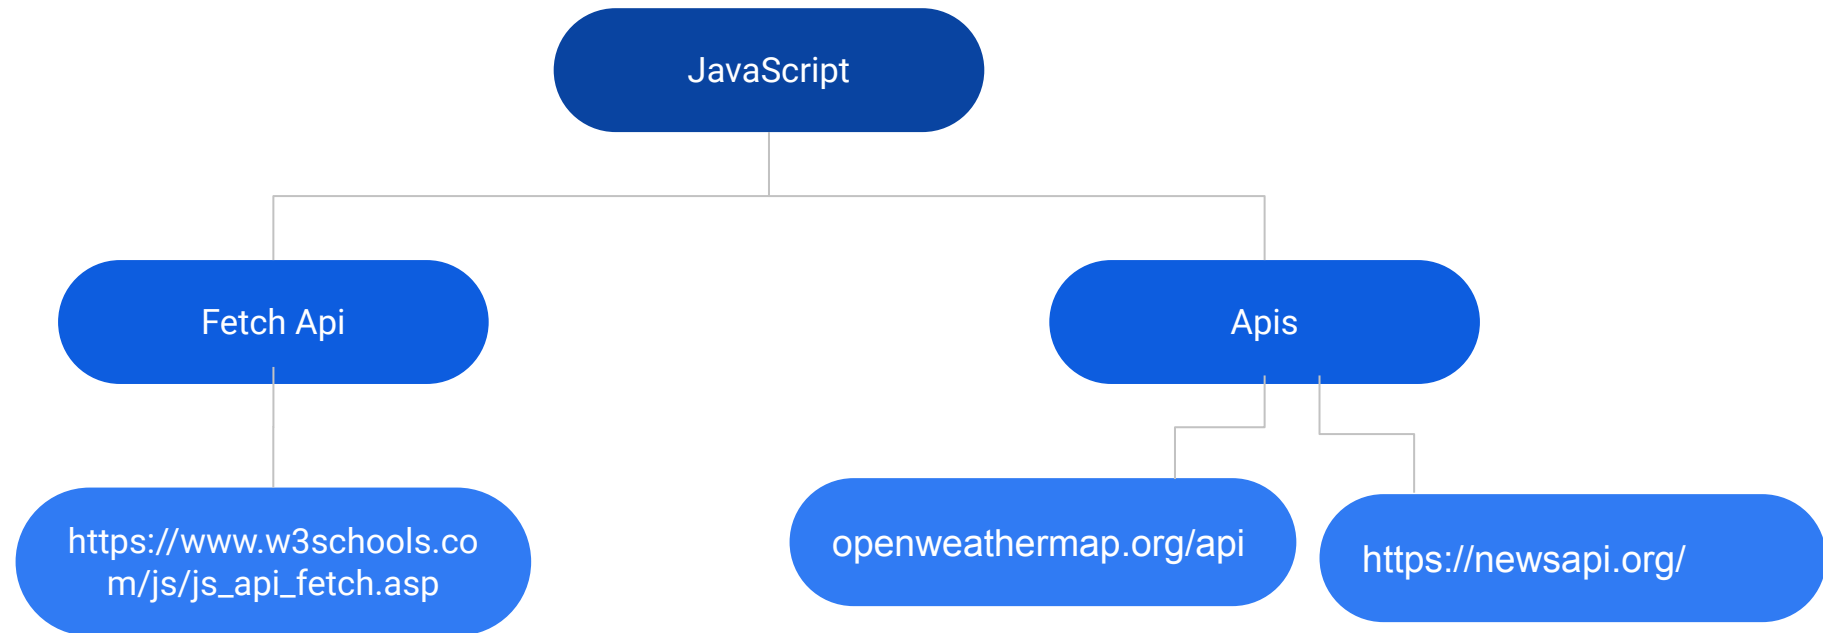

This is the landing page of our website where on the right News from India is being displayed as default

Interface Of Our Website

This page opens when we search our city name. Almost every Detail of the Weather has been displayed on the Left side of the page

- Will able to search news related to your city
- Will able to read full news in detail
- Hourly weather report
- Automatic Location Tracker

THANKYOU
